## ACADEMIC ENRICHMENT

Our academic enhancement courses span all subjects and are catered to help our students review concepts from the previous year, prepare for the upcoming school year, and even get ahead on material to come. Academic Enrichment includes: Vocabulary & Grammar, Reading Comprehension, Writing Composition, Mathematics, Chinese, and Chess

## CAMP THEMES

## LOGIC THINKING

A foundation to many studies, logical thinking and reasoning will prepare students for studies ranging from mathematics to computer science to philosophy. Students will develop critical thinking abilities as they improve their math skills.

## MUSIC ENSEMBLE

Students will develop their musical knowledge by learning about composers and appreciating different musical genres. Our little achievers will learn music history and music theory. Students will also learn to play various instrument and perform together as an ensemble. They will also compose their own songs which they will be able to record on a CD and share with their families and friends.

## GET UP AND DANCE

Dance is one of the greatest forms of self expression. Students will learn different styles of dance and develop a better understanding of movement, rhythm, and an appreciation for different cultures. Students will learn to be more comfortable in their own skin and on stage. Mostly, our achievers will have lots of fun dancing with their friends.

## LIGHTS, CAMERA, ACTION

Every student has an inner star. Together, we will help students take the stage and not shy away from the spotlight. Students will develop their acting technique, voice dictation, body language, singing, and dancing skills as well as design and build the props and costumes which they will showcase in the Achiever summer camp musical production.
